

2.6.1 Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution

Higher Education:

After coming out successfully, a large number of students prefer to opt further studies in higher courses. Specially, the students belonging to commerce faculties opt post-graduation in commerce at our institution itself, since it is the only institution offering post graduate in commerce except the university P.G. department of commerce. Similarly, a chunk of students belonging to arts and science faculties migrate to other universities in the state to continue their higher education. Since it is an economically backward area, most of the people prefer to be within the itself. Only a limited number of students move to other parts of the country for pursuing higher education.

Employment:

After passing out their degree exam, the students attempt for getting selected in different government and non-government organisation. Though, record of the number of students getting selected in those organisations is not completely with us, yet many a times it is known to us as well. Ours institution offers many professional degree courses such as BBA, BCA, B. Lib, B. Ed, Hospitality management etc. And hence a good many students getting their certificates, Diploma and Degree get themselves engaged in various small-scale industries located inside the district and even outside the district. A number of students after getting their B. Ed degrees go to various school's public as well as government not only in the district and state rather throughout the country.
