

### **Program outcomes, program specific outcomes and course outcomes**

#### **Employment:**

Employment is the main choice as the Santal Pargana Region is historically backward and behind in national development index.

Students strive to get selected in various government and non-government organisations after clearing their degree exam. Though we do not have a detailed record of the number of students who are accepted into those organisations, we are often aware of it. Ours institution offers many professional degree courses such as BBA, BCA, B. Lib, B. Ed, Hospitality management etc. And hence a good many students getting their certificates, Diploma and Degree get themselves engaged in various small-scale industries located inside the district and even outside the district. After receiving their B. Ed. degrees, many students work in public and government schools across the country, not just in their district and state.

#### **Progression to Higher Education:**

After graduating with honours, a considerable proportion of individuals want to pursue higher education. Students in commerce faculties, in particular, choose to pursue a postgraduate degree in commerce at our school, as it is the only institution that does so aside from the university's P.G. department of commerce. Similarly, a large number of students from the arts and sciences faculties move to other parts of the state to finish their education. Because it is a low-income region, most residents choose to stay within the city limits. Only a small percentage of students relocate to other parts of the country to further their studies.

**Pass percentage as course outcomes of Students in Different Programmes**

Level	Programme	Subject	Total No Students Appeared in Final Year		Total No Students Passed/Awarded Degree		Out of Total, Number of Students passed with 60% or Above		Total Pass Percentage
			Total	Girls	Total	Girls	Total	Girls
